Section 3 Hazard Identification

Emergency Overview: This material is a pale yellow liquid with a bleach type odor.

Primary Routes of Exposure:

Skin Contact  
Eye Contact  
Inhalation

Potential Acute Health Effects:

Eye: May cause eye irritation.

Skin: May cause skin irritation.

Ingestion: May cause gastrointestinal irritation.

Inhalation: May cause respiratory tract irritation.

Potential Chronic Health Effects: None known.

Signs and Symptoms: None known.

(See also Sections 4, 8, and 11 for related information)
Section 4  First Aid Measures

Eye contact:  Flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention.

Skin contact:  Wash affected area with soap and water. If symptoms persist, get medical attention.

Ingestion:  If swallowed, contact a physician or Poison Control Center. Do not induce vomiting unless directed to do so by medical personnel. Give victim two large glasses of water. Never give anything by mouth to an unconscious person.

Inhalation:  If symptoms develop, remove person to fresh air. If symptoms persist, get medical attention.

Section 5  Fire Fighting Measures

Flash Point (method):  N/D (est. > 300 °F)

Fire Extinguishing Media:  Use any means suitable for extinguishing surrounding fire. Use water spray to cool fire-exposed containers, to dilute liquid, and control vapor.

Protection of Firefighters:  As in all fire, full protective gear and self-contained breathing apparatus should be worn.

Unusual Fire and Explosion Hazards:  None.

Section 6  Accidental Release Measures

Clean Up Methods:  For small spills, dike and contain with inert material (sand, earth, etc.) and transfer liquid to containers for recovery or disposal.

For large spills, dike far ahead of the spill. Keep unnecessary people away. Isolate hazard area and deny entry to unauthorized personnel. Stay upwind, keep out of low areas, and ventilate closed spaces before entering. Stop leak if you can do so without risk of injury. Keep spill out of sewer and open bodies of water.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

Section 7  Handling and Storage

Handling:  Avoid prolonged or repeated contact with skin. Keep out of reach of children.

Storage:  Store at moderate temperatures (50° – 100° F). Protect from freezing. Keep container closed when not in use. Store in well ventilated area. Store away from heat.
Section 8 Exposure Controls / Personal Protection

Engineering Controls: If exposure conditions warrant, use mechanical local exhaust ventilation or general dilution ventilation to reduce vapor concentrations below applicable occupational exposure limits.

Personal Protective Equipment (PPE):

Eye Protection: Prevent eye contact. Use eye protection (chemical safety glasses or chemical splash goggles) to prevent contact when splashing is possible.

Skin Protection: Avoid skin contact. Wear gloves to prevent prolonged or repeated skin contact.

Respiratory Protection: None required under normal, intended use conditions. If vapor exposure causes discomfort and in areas of poor ventilation wear NIOSH approved respirator.

General Hygiene Practices: Wash thoroughly after handling. Prevent Eye contact. Avoid prolonged skin contact. Avoid inhalation of vapors.
